Wouldn't you want to wait to sell it for all of the content PvP etc. to come out? You could easily sell it for a much larger profit at that point. Or you could wait till the summer where registrations skyrocket due to school being over and make more profit that way. I would do that unless you need the money right now.

No money needed right now. I just don't have the time right now.

After being banned for a month, I found some side hustles that proved to be lucrative.

The new update and continued improvements do nothing but make crews more attractive as an investment. As you can see, many enjoy the game and in order to do so, they must be in/own a crew.
