FAQs

Q: Are these carded?

A: Nope, these are bruted.

Q: Is this safe?

A: Totally! This is the safest method to get Netflix, codes doesn't belong to anyone, so no harm done and Netflix can't really un-redeem the GiftCard. so yeah!

Q: How to use?

A: You will need to redeem these by visiting Netflix. com / Redeem (remove spaces)

Q: Does it work for all countries?

A: Yes and No, it will only work for USA Billed accounts since the credit is in USD, so you need

USA account, but that's not an issue, create a new account with USA IP if you're not from USA, after you've redeemed the code, you won't need VPN to stream your shows. Netflix Offers worldwide service.

Q: Shall I apply it to my existing account or create new?

A: I would recommend applying it to new account as that way you will also get 1 Month Free from Netflix as Trial Month. (Note. New account will also need secondary payment method aka Credit/Debit Card or Paypal)

Q: I tried creating account, its asking me my Credit Card details, what to do?

A: Go to the Netflix. com/redeem page (Make sure your IP is USA), put your email address, it will automatically redirect you to make new account, it will ask you for secondary payment method aka Credit/Debit Card or Paypal, you can't skip that anymore.

Q: I get country Mismatch error, does the code work for my country?

A: Its not about the code mate, if Netflix provides service in your country, it will work for sure, Netflix works globally, doesn't matter if the account is USA or UK, you can access it from anywhere as long as Netflix is available in that country. Same applies here, the code is US currency == USD, so it will be applied only to USA account but would work globally, so you might need to use VPN to create account through Code, after the account is active and code has been applied, you won't need the VPN again.

Q: Do you do Refunds?

A: Please don't purchase if you've this question, I try my best to provide you service that you've paid for, the codes work for everyone, so don't make excuses, when you buy a product you agree to TOS and that states you won't get refund.

Thats not an issue mate, create a new account with USA VPN and redeem the code on it, it will also give you 1 month free (Trial) and then it will start using the giftcard credit from next month depending on the subscription you chose.

You won't need VPN to stream, its just needed to redeem it.

Thanks.

All contracts auto-expire in 3 days unless I mark them complete and that only happens when you actually purchase something and send me Order/Invoice ID of it. I have cancelled it though.

Edit: I don't see any contract associated with your UID
