Been using this dude for a month now.

No issues - we've exchanged over \$3000 so far and multiple times in \$500 transactions.

I always go first and the money is sent to me whenever he's online as we're in different time zones.

No issues with my paypal account as far as restrictions when exchanging with him.

Still waiting for my exchange. He's saying that he doesn't have PP access right now and has offered USDT instead, which I refused.

Only stating this in case the account has been compromised; I'd refrain from dealing for now.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
