Thread: [Giving away 2 domains \(namecheap\)](#)

**dredos** - March 5, 2019, 2:22 am

Hello everyone,

I'm giving away 2 domains, both registered on Namecheap.

I can't post links so I'll try to do something like this.

1st domain: accountstore(.)shop just remove the brackets

2nd domain: hacks(.)wiki again, just remove the brackets

Rules

1. Post anything below 2. Send me some rep, doesn't matter how much 3. There's 1 entry per member

Giveaway ends in 3 days from now (8. March, 2019). When I become eligible to post links/photos, I'll post a proof of ownership in case you don't believe.

Anyone can join! There are 2 winners, 1st winners gets to choose the domain.
