Thread: [ALMOST 100% OF ANY GIFT CARDS TO BANK TRANSFER, Completely safe and legal.](#)

Sapphire - March 5, 2019, 9:35 pm

Stop reading if you don't have legal documents and a working bank account that can receive funds internationally.

The guide is based on amazon.com gift cards. But same method can be used for almost all gift cards. The guide works almost worldwide. If you have a gift card, you can convert it.

This is my personal method that can convert your gift cards to usable funds.

I have seen people selling gift cards and gift card balances for 60 to 75%. If some are lucky, they can get about 80% max. You loose a lot in this exchange process. Let's assume, you sell your gift cards regularly at a rate of 75% and if you are selling \$100 GC, you get only \$75. You are loosing \$250 per \$1000 gift card balance. This guide gives you almost 100% of the gift card value and you will be saving thousands of dollars if you are getting gift cards regularly.

For the first 10 buyers, current cost for this E-Book is \$109.99. That you can cover in only about 4 or 5 \$100 worth of gift card conversion, if you are currently selling only for 60 to 75%.

No more vouch copies are available. Don't bother asking.

Do not PM for vouch copies.

Some gift cards cannot be converted. So, if you are planning to convert a gift card other than amazon, ask me before purchasing.

You can convert almost any gift card from any country.

I have liked this idea so much that I will be donating to this user in a month from my extra savings. I really don't think the price is too much for this as it's really gonna save more than I did exchanging my amazon balance.

I highly recommend getting this e book if you wanna bank your amazon gift cards. I am not sure if

this idea can be used for other gift cards. But, for amazon, it will work regardless the the country.

I just bought this e book. And I must say it's noob friendly and has very good grammar and explained using picture step by step.

My honest review - I already was aware of this method before given the link. And the guide provides a very detailed step by step tutorial on how to accomplish a close to 100% redemption of AGCs. I'm not sure how this method can be used for ALL gift cards... but it should work for AGCs.

I think the price is pretty steep for this method, I'm not going to say it's necesarrily PUBLIC, but many many people know about it and already do it.

Offering \$10 discount for those who buy with ETH.

Marv3nnn - March 7, 2019, 1:16 pm

does it involve gameflip/purse or SE with amazon?

Sword - March 7, 2019, 1:24 pm

I'm planning on buying this but I just have a couple questions.

1. Within 1 day of opening your HF account, what led you to buy a sticky and l33t so fast?
2. Why does your IP match two other HF users?

Mr.JohnnyMix - March 7, 2019, 3:02 pm

Does this method involves redeeming the AGC in any Amazon account or everything is done separately?

1. I had another leet account on this site couple years ago. Didn't use hackforums for more than a year. It may or may not be closed. I had username/ email data stored on my old PC. And that no longer works. I don't even remember the username or email I used for that. Probably, didn't made any posts. I was here for currency exchanging back then.

2. Heard of VPN?

No more vouch copies? It sounds promising.

[???) - March 7, 2019, 7:46 pm

Is there any delay to this method or does the conversion happen near instantaneously?

Zoomers - March 7, 2019, 7:53 pm

Does it involve creating multiple amazon accounts?

I was already aware of the method and so I didn't purchase it. But discussed with the seller and his method works.

It's very HQ method.
