Thread: [\\$24,000 in Passive Income for February](#)

Jombah - March 6, 2019, 10:40 pm

By passive income I consider all methods that require less then 1-2 hours of effort per day. Decided to empty out an account and deposit everything from my online ventures into it, and track it for roughly 30 days.

Not bad for a 17 year old. Take this as motivation, I remember bragging to my friends how I had \$4,000 in my bank account 2 years ago.

If you think this is fake or that i'm lying, that is perfectly fine as well :)

If anyone has any questions about trying to make money online, post below and i'll try my best to answer them

This is some great earnings. Is this using the method youre selling?

Partially, the only method I use that's actually for sale on HF is my private one. The other ones I have listed are ones I used in the past, but i'm always looking for new things.

Well you're lying about something.

Very impressed you went that far back in my post history. Kinda creepy to be honest though.

He made his account in 2009, I was born in 2001. I was 8-9, does that make sense? I can bust out the calculator if needed.

If you think i'm above 18 with a Youth account, you may need to head over to the doctor pal. Don't have anything to prove to you though.

Being held back at school does not translate to your date of birth. He made his account in 2008 in which you stated you were 9 years old. If you were 9 years old in 2008 then you were born in 1999 or 2000 at a push. If you were born in 2000 you would be at the youngest 18, if you were born in 1999 you would be at the youngest 19.

Which means your YOUTH ACCOUNT in the screenshot has been manipulated and the whole purpose for this thread is to boast about your non-existent shitbook in hopes its going to attract children who probably make up the majority of users here. The psychology behind it is, if I show I am really successful at this age then both older people and younger people will think my methods will work for them.

Well I am sorry and I am I fairly sure anybody with a brain knows straight up ebooks exactly like yours are not worth the bandwidth it takes to download them so I won't go into more details other than...

If you're going to sit here and lie at least put some effort into it.

Woah woah woah.. slow down. No need to bring out the paragraphs buddy. You think im faking a youth account? (lol irl)

So you are implying i'm 18 - instead of 17.

That is some mind blowing information, completely changes the entirety of this thread. Should I have posted I was 8 years old instead? Would that help you sleep a bit better tonight? I can still edit the post if you want me to.

Seems like you took this post the wrong way.

Aww, is that all you have to say now? Doesn't that video look a bit 'manipulated' to you?

Don't worry, I can somewhat understand your jealousy.

BTW - you're more than welcome to look back at more my posts from ~6 months ago.

Not going to lie, it's a bit weird how obsessed you are about my age. I don't have the time to keep responding to you ?

Post a mobile screenshot.

I agree with your theory

Any other requests? Let me know.

This was definitely not the purpose of this thread, but it's kinda funny to me.

Just going to close this, appears that just about everybody posting here seems quite jealous. It's okay though, I would probably be jealous too.

If anyone is looking for tips, you're more than welcome to message me.

Never thought somebody would go through 50 pages of my posts scouring for information about my age - then try to convince myself on how i'm actually a year older than what I stated.
