**5chn4pp** - March 7, 2019, 10:47 pm

I am posting this from my phone because when i try to access HF on my home network, i get a 403 forbidden error. Can someone tell me try HF suddenly just blocks my home network now? I'd like it unblocked please.

Damn so you still got this? Omni said it might be firewalled. Maybe send him your IP.

Same thing for me. Only on WiFi though, not on my local net. Have had it since yesterday.

I had the same issue. I had to contact omni to get it resolved.

Happens to me randomly. Never lasts long tho.

I assumed it has to do with my ipv6

PM me if you're blocked by the IP and get a 403.
