Thread: [going straight r00t](#)

Samilly111 - March 8, 2019, 2:42 am

Hi there,

I'm looking at upgrading because ive started some projects, made around \$900 from the resources I've found on this site over the time that ive been here and I would like to go straight r00t HOWEVER

How would I go about doing that, I don't want to pay with Crypto-currency as I don't like it one little bit, I don't trust it (call me old fashioned) but its not who I am as a person, anyone give me any solutions to my problem please?

apologies if in the wrong section

EDIT - I know you have to be l33t first, that isn't the issue im talking about here

There are more requirements than just being L33t.

Also if you do not want to buy and hold crypto currency yourself you can make a deal with a trusted member on here who does currency exchanges for crypto. This gives you the option to purchase in multiple different payment options so long as you seal a deal with a member.

Always do a trust scan, try to do deals with Vendors if possible and make sure you read the contract policies before making the deal.

Last I checked you cannot go straight to r00t. Even if you could, It does not look like you qualify anyway.

Im aware of the requirements, my issue is with crypto not the requirements

Thanks though

Last time you bought l33t? If you lost your account I suggest contacting staff. Otherwise this post makes you seem like a ban evader / multi ?

I was banned because I pointed out how easy it is to scam people on here and Omni didn't like that I said that, even though my intentions were to maybe even help out with that. He finds me out pretty fast as soon as he figures out who I am, I don't even try to hide it and use the same email. I'd love to get unbanned, but I don't think it will happen.

I don't think you technically are, but I doubt I'll go to jail for it. But I wasn't technically banned, just permanently muted. name: VouchPotato

I think you will go to jail for this.

It is way too serious of a crime.

I am talking about HF POLICIES. No need to be a smart ass.

By the way you don't look banned:
