Beta Information:

Spoiler [\(Click to View\)](#)

During the BETA phase the software will be getting updated alot. You will get all the modules that gets added to the cracker for free. The BETA will be going for about 1-2 months just so that i have time to fix everything and add alot of new modules. Prices will probably be higher when the release comes around but i haven't decided it yet. As a BETA tester you will help me decide what websites we should add and what kind of functions should exist.

Current Modules:
