Anyone seen it? How's it? What are your thought? If you haven't seen, are you gonna see it? I haven't seen yet. Willing to ASAP.

Yin Yang - March 9, 2019, 5:20 am

The ratings look really bad for it from what I saw

Personally, I don't care for ratings. I don't remember the name but just a few months ago I didn't care to see a movie because it had like 1 star or so ratings. But one day, I had nothing to do and downloaded it. The movie turned out to be great. I loved it.

Go see it. For a backstory it was really good movie and it doesn't take itself too seriously.

How did you like it? How would you rate it?

DBS2017 - March 9, 2019, 6:05 am

I fucking love it, it was awesome and especially a damn sexy cute cat but with powers, there's an infinity war end game scene too at the end.

Strayaa - March 9, 2019, 6:06 am

I dunno if I'd pay to watch it, not being sexist or anything but the idea of a main superhero character being a female doesn't appeal to me for some reason

Seems like you enjoyed way too much. Obviously, Endgame scene had to be in there.

No I mean I would probably watch it if someone else had it on dvd or something, it's not a priority kinda thing right now.

And how the fuck is that racism lmao

Who Soup - March 9, 2019, 4:50 pm

Was it? I was going to go see it, but I don't think so anymore. Can you explain why you think so?

overlude - March 9, 2019, 7:34 pm

Saw it. I really liked it. You won't find it bad, that's for sure. When you sit down and think about it there's some bad parts but while you're watching it's pretty cool.

(Mar 9, 2019 06:20 AM)Yin Yang Wrote: [\[CITE\]](#) The ratings look really bad for it from what I saw It's being rating trashed by trolls and bots. People are mad that it's a female superhero, and some of Brie's personal comments apparently. RT purged a lot of ratings but they keep coming. It'll balance out eventually when people are done being upset about it.

Gender of superheroes is so overrated. She was female in the comics as well? Like... ??? -- even if you're a comic geek you can't have a problem with it. Obviously you're entitled to like and dislike whatever, but I think it's overrated. MCU could've done some tweaks to her character admittedly, but a lot of her personality reflects her past as explained in the behaviour I suppose. Going to avoid elaborating to avoid spoilers. The masculinity of main superheroes is an overrated concept imo.

It's a relaxed movie. It's not as serious or as thrilling as some of the others. It's not one of the best, but it's certainly not one of the worst, and I had a good time watching it. Just my personal opinion.

I'd give it an 8.5 and would watch it again. Had some good funny moments, a bit like Ragnarock. Fills in some of the back story too. Wink wink.

SteamedHams - March 10, 2019, 9:03 pm

I plan on seeing this sooner or later.

QMark - March 11, 2019, 11:17 am

I saw it. She's an epic, sexy, and interesting hero. Great storyline. I loved that twist towards the end of the movie.

Trust me it's awesome.

Spearmint - March 11, 2019, 4:34 pm

I'm getting some mixed reviewers here. Probably going to watch it anyway
