I will definitely purchase one of your VCW packs. Posting to come back later.
Also, good luck with the sales!

Thanks - I hope you know what I mean

Hello, both girls does not talk in the video. The video has no audio in it. And yeah since they don't talk so its not visible.

Probably \$5. I will need to contact the girl. But she's actually looking for bulk deals. She wants to do around \$20 customs instead.

I mean a \$5 video verification just probably turns her off. Maybe you can combine the \$5 verification video with some additional pictures and customs to add up to \$20?

But yeah. First things first if you are serious I will need to contact her availability, its been several months since we last worked and there is only 1 custom ordered so far from her which is also a verification video that cost around \$5 or \$7.

bkPx - December 16, 2019, 6:11 pm

Just bought this pack, looking through it it looks VERY solid, especially for kik ewhoring, any verification i've ever been asked for this pack has.

You will not have a problem verifying yourself to customers, especially with the option for custom stuff from seller!

I will post back with profits :)

I have provided a text guide in PM after purchase.

I might just tell you now its using Manycams.

Yes I do provide the software installation in a package.

But I do not have the time to teach you how to practice and use a VCW though.

You will need to practice yourself.

Vouch for the \$30 Jane pack.

Numbers aren't impressive by any means, but profited \$17.14 within the first few hours with minimal effort. Don't let the numbers be a reflection on the quality of the pack, I'm pretty sure it's user error. I'm low balling myself with prices.

Regardless, being limited to Kik sucks a fat donkey d*ck.

Names are censored due to E-Whore/Victim confidentiality. In other words: I'm not doing the grunt the work for your lazy asses. Go get yours.

Edit:

The numbers in the third screenshot are off. \$12.27 should be \$12.07 and \$2.00 should be \$3.00. I'm too lazy to take a new screenshot.

As for being limited to kik. Do not worry.

I'm curious about the "Crystal" pack. I see theres over 2000 social media building photos- what are these pictures like? I've always struggled finding packs with a large enough number of "normal" photos to use in different settings to build a profile. Would it be possible to see samples from the pack? It's fine if they're all watermarked, I'm just curious about the versatility of this pack, thanks!

Totally i bought 3 packages and i have my negative comments for new customers.

1. VCWs are only clips and they are not prepared for Flash player. You need to change between videos manually.

Seller didnt said anything about it.

2. I bought one of Snapchat sized package. After bought i realized videos are without sound.

No any information about it when i buying or on selling page.

Positive things * Packages has pretty good verifications.

Kindly asked refund for last purchased product but not accepted from seller.

Anyway Good luck on your selling.

VCWs in the preview clearly is in video clips format. If its flash or HTML I could have uploaded a video of it as a Preview.

You did saw the VCW previews in the first place am I right? Before Purchasing? Or you did not check the previews?

Anyways Yes I should have specify clearly in the thread too as well as the Crystal Pack for not having sound in the snap nudity videos.

But the verification videos does have sound do not get me wrong on this.

TOS clearly states no refunds. I did offered to compensate you with another pack free of charge.

You refused.

Its snap videos and some regular short videos anyways, its not a long 10 or 20 masturbation video which sound does comes into play.

However, I admit my mistake here. Sorry about this unfortunately..I will correct the details on Crystal pack..

Thank you for the feedback.

Up untill now, I can say for the specific seller that he is one of the most professional ones regarding

the pack selling game. He happen to do a small mistake which he fast own up to and offered compensation for that.

The packs overall are great in my opinion and you should be extra careful reading the details of what's included before buying any.

Thank you very much, I will be coming back for more, for sure.

This is just old school VCW. You can load them up via manycams and do the transitioning yourself. I do not have html or flash based version at the moment.

If you want to full .wmv clip without any splicing, I am happy to sell that to you too.

Well flash or HTML is obviously easy. Since there's buttons to auto transition.
But yeah transitioning manually requires some skill and practice.

However please do note I do not provide mentor service in guiding on how to use VCW.

Xanadium - March 4, 2021, 12:37 pm

Purchased the Crystal pack and have been working with it for about a week so I figured I'd leave a review.

I'll start with the good things. This pack has some great content in it and the model pulls in a lot of attention. There are some Snapchat sized pics and some of the videos are also Snapchat size. There are some picture sets inside the pack that fit well back to back so you can have a (brief) snap session with someone. There's good lighting in a lot of the pictures (which also ties into the negative that I'll go into later). Money is also a great seller to work with and the purchase was easy and incredibly fast so that's always greatly appreciated.

Now for the negative. Unfortunately, a majority of the verification pictures and videos are recorded in landscape rather than vertical which has been a hassle to work around. I wouldn't consider "landscape" to be Snapchat ready personally since snaps are generally recorded/taken in vertical. A majority of the pictures are also taken either in direct sunlight next to a window or near some blinds that clearly show the time of day which causes some awkward stickers and weird crops when trying to snap people at any time other than daytime. I've been having to zoom in on crops a lot, especially with the landscape pictures, which makes the picture quality look pretty bad in some cases so this can be troublesome. In addition to that, there are also a few duplicates and some filler pictures that show for example just a snap of the TV with a prewritten caption or pics of some product she purchased (like eyelashes) that could only be used in VERY specific situations.

OVERALL the pack is good but it has some flaws that make managing a premium account more difficult than it needs to be in some cases. Basically, it's usable but you'll spend some time looking through the whole pack to find maybe 3 pictures that could fit together back to back (even more difficult if it's night time). I can only speak for the crystal pack as I haven't tried any other ones. It isn't BAD but it's not great either and I definitely wouldn't say it's "Snapchat sized" unless you plan on snapping horizontal/landscape pictures and trying to pass them off as live pictures that were just taken using Snapchat's camera.

Hope this helps someone make their decision on which pack to buy!

Hello

I don't like to give negative comments but I bought the Crystale pack and I am extremely disappointed, 90% of photos contain English snapchat text and it's not precised, only that they have the size of snapchat but not text, so I liteally lost 80\$, I can't do anything with this pack.

Too bad because the pack is well organized, I should have asked the question before but for me it is normal for the seller to specify this kind of thing on a large market with a lot of people who are not necessarily English

Thank you anyway for this purchase, glws

The text are what you called snapchat captions or snap text filters. I can't control how the girls take the photos though. Its a snapchat pack in the end of the day though. I assume its normal how girls take their photos though.

Maybe the next time I'll have them not use filters.

And second question, how do you use these pics and videos without getting flagged as media upload, so how do you make it a snap.

You mostly just direct selling or sell snap subscriptions if you want the easy way. This depends on your traffic.

If you want to talk your way by providing some excuses and some sort of story then that's up to you which takes longer or time wasting but you can pull it off if you got social engineering skill.

They are live snap apps if I am not wrong. But not sure about the market now.

You can try kik they are public apps to fake the live camera.

I purchased the 5 Packs for \$125 a week ago because I wanted to give Ewing a try. I used to do it back in 2018 but haven't touched it since. One thing I didn't have back then was verifications which definitely are very helpful.

Yesterday I finally had time to test out one of the packs I purchased.

After setting everything up, it only took 5 minutes to get my first sale! 30 minutes or so after that another guy bought 2 times.

So the quality of the content is great for sure, but one thing I would like to say is that for some of the packs, the videos are 6-10 seconds long. Definitely something you can work around though.

The quality of the pictures and verifications are great and it's everything that was advertised.

I ended the day with \$150 total made so I am definitely glad I made the investment.

It was a smooth transaction with fast responses when purchasing the packs and the items were quickly delivered.

If you are looking for a good picture pack to use for your Ewing, give one of Money-'s a try!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
