Thread: [Business PayPal limited](#)

Hey guys, I got my fully verified business paypal limited right now.

There is \$70 left, I am not worried about them.

Anyone who can give me an advice how to unlimit it or withdraw the money before 180 days?

I don't think you can. PayPal doesn't budge, and the people who work in the limitations department are the laziest cunts I've ever had the displeasure of dealing with

What is it they are asking for exactly? If you don't mind sharing

I just got this.

Had 2 transactions this month for total amount of \$70. That was AGC for pp(I received PP). They were done as F&F.

In total, account is 1.5y old, 0 chargebacks, many transactions done (\$3k+)
