Thread: [SELLING FBI RELATED DOMAIN AND HQ DOMAINS](#)

Tom Cruise - March 11, 2019, 3:52 pm

Hello HF people, since I have no use for these domains whatsoever, so I am selling them for other people to use.

I only accept bitcoin and ethereum.

PM me or comment down below if you want one of these domains.

- <https://fbi.directory/> [\$20]

- busybox.pw [\$5]

- establish.pw [\$10]

- cryptowatch.pw [\$5]

Anyways just contact me if you want one and have your payment setup ready, plus I'll show proof I own the domain.

See you later ?

fbi.directory isn't a government domain

Ok I should have been more specific, but FBI is a government related "word".
