Thread: [How to send picture from gallery looking like a real picture?](#)

Smok£y - March 14, 2019, 9:03 am

Hello guys,

I used to be an ewhore and I did it with a jailbroken iPhone, but after being back at it I don't know if that's still the way to go or if there are other methods what makes a pic look like you send it live if you understand what I mean.

Ioli666 - March 14, 2019, 9:54 am

What app are you using? Please put more info if you need an answer.

As for Snapchat - [showthread.php?tid=5948657](#)

As for Kik - use an older version / hacked apk.

Snapchat: Sticker Method

Kik: Lynx Bliss (Moded Kik apk)

Sticker method is crap. You lose quality and sometimes the sticker isn't even good. You are better investing in a paid application like the one I linked. Plus, you can send videos with it. And you can't send videos with sticker method.
