I don't think he scammed me, he was going first I redeemed all but one code and the code I didn't redeem didn't Work but i sent payment without checking, hopefully he'll resolve it

Can you show any sort of proof? Anything like that?

Just as you are not giving us much to go off here..

Edit: I see you don't think he scammed you, hopefully it is resolved the user does not give me any reason not to trust based on his trust scan. Looks trustworthy seeing on as he was going first.

best of luck
