Im trying to get traffic on my snapchat but when i got onto Free chat rooms i just have a bunch of guys trying to get free stuff. What are good sites to get good traffic

Traffic sites are really dependent on where you live and what sources your country has available.

Imho, chatrooms, dating apps, and porn sites are decent traffic worldwide.

If you tell me what country you are from, I could probably help you with more direct and higher-converting traffic sources.

Gaining traffic is easy, after you get the traffic you need to filter through to find the buyers.

You should download some of the "Add me" apps on your phone, google "find snapchat friends" and add your snapchat username on all of those types of website, the same method can be done for

kik or skype.

On some sites, you can "bump" your username every few hours, some only allow "bumping" every 24 hours.

The fastest source of traffic is by posting your username on those websites, and "add me" apps. It doesn't matter where in the world you are, you can always receive an AGC and trade it for some btc or paypal etc on HF. So unless you're worried about getting country targeted traffic, don't worry too much about their location.

Chat rooms are more difficult to get traffic from, since most now block the words and "alias's" snapchat, kik, skype etc.. So if you want to get traffic from chat sites, my best advice would be to load an image of your girl in the Snapchat app, add the caption "add me on snapchat, yournamehere", save that image with the caption, and post that on the main chat lobby of your chosen chat room. Take note to use a girls name, because most guys in those chat rooms will happily open images sent by a girl in hope that they are a nude, they will see your snapchat username and many will add you, but from my experience unless you manually pm a fair few people, in which case you'll likely get kicked by the bot for spamming, chat rooms are a much slower traffic source.

If you need any more help, feel free to send me a PM and I'll help you with anything completely free of charge :)

Look around on this forum, especially this subforum. There are tons of traffic sites.

One way I like to find new traffic methods is just searching someone's ewhore username, that will usually tell you something. ?
