Thread: [Keep getting logged out](#)

Nachfolger - March 15, 2019, 3:34 pm

As a web developer I feel like I should be smart enough to figure this out myself, but seeing as I haven't changed any account or website settings, I don't think it's a browser issue.

Every time I open HF for the first time each day, I have to relogin. I wouldn't care much, except I have 2FA enabled, and that makes it a pain to log in. I have two other active sessions on my phones, and neither of which face the same issue. I recall omni mentioning a 3 session limit, which I should be at, but not pushing beyond.

This wasn't an issue up until a few days ago.

Edit:

-- OS is Linux 18.04

-- Browser is Chrome 70.x

I've been getting logged out every time I visit HF on my phone, it just started this morning. Pretty annoying.

Biggy - March 15, 2019, 4:36 pm

Happened to me too. You have to use the login screen that has the tick box "Remember me" and it shouldn't happen again.

I hope this is it.

I hope this is it.

There's 2 separate login screens. One has the box, one doesn't. I believe the popup box doesn't have it, but the redirect page does. Either way I'm sure it'll fix the issue.

iPhone so Safari. I haven't experienced it on my laptop however, on which I use Google Chrome.

Go directly to login page and click "Remember Me".

Happens to me on Firefox using Windows 10. I don't know what the issue is either, I have remember me enabled, cookies haven't been deleted in a good minute.
