His style is so unique. Honestly I fell in love with it the second I saw it. I purchased an animated graphic from him in 2018 and still use it to this day. He should have much more exposure than this!

I love your work! I'm looking for an advertisement, either video or picture but video is preferred, that will be used on Instagram and Facebook to promote my beauty related shop. The "video" could even be a gif. Not too picky. Do you think you could send me a quote for it?
