Thread: [MyBB Development | Themes, Plugins & Additional Tweaks | Exp. Since 2012](#)

Wires - March 16, 2019, 4:37 pm

[Previous Thread](#)

[Start Service](#)

With over 5 years of experience (since 2012) as well as being an Official MyBB Contributor, I've acquired a wide range of knowledge and various skills around the MyBB software which has also allowed me to own many forums. Along-side owning forums, I have also ran a MyBB Development School and [Dawn's Forum Development Course](#) which primarily consisted of Theme and Plugin Development, as well as diagnosing common problems and security tweaks. The skills that I will be offering today is as follows:

Theme Development (Not available at the moment)

Plugin Development (Depending on the request)

Any additional tasks

Bits & Pieces (Old) ([Click to View](#))

(MyBB 1.8 Version)

(MyBB 1.8 Version with iHydra's Permission)

Popular previous forum I owned - Real Forums, GeneralMB & Oseax

Recent Plugins Coded: Random Userbar Game (<https://hackforums.net/showthread.php?tid=5678822>), Awards Exchange/Market, Awards Claim, Postbit Background Changer, Timed-Stickies and many more.

In order to start the process, feel free to get in contact with me via post or PM. I usually answer all requests within minutes, but under exceptional circumstances my replies can take up to 12-24 hours.

I work by the project (meaning I give a total price, not an hourly price), and from most members I require payment upfront unless the amount is exceptional and this is not negotiable or refundable. After completion, I offer revisions for up to 24 hours in most cases. In some instances I may refer you or seek additional help from various partners of mine.

Wires - March 20, 2019, 1:57 pm

Now available for work. Mostly doing plugins & additional work. Can PM me for a full list of my

plugins.

Wires - April 9, 2019, 2:33 pm

Mostly offering plugins and additional help. Most recent plugin is Awards Exchange/Market.

Spade - April 10, 2019, 10:35 am

I could use a plugin (got a nulled theme and Im missing a special plugin)
dm me your dsx

Just messaged you.

Wires - April 18, 2019, 3:21 am

[\[Osx\] Advanced Invitation System](#) is now available for free!

Zadie - June 1, 2019, 7:06 pm

I'm looking for advanced MyBB optimization as well as custom plugins. I have sent you a PM with info

Just replied to your PM. Thanks.

Wires - June 7, 2019, 7:12 pm

This is still happening. Please only PM me for requests, and not through other means of communication.

Wires - June 10, 2019, 1:29 am

Service is still open. Currently doing plugin requests & other modifications.

ShinyThings - June 10, 2019, 1:30 am

I've sent you a PM about an issue I'm having if you can help me fix it

Verilog - June 10, 2019, 3:38 am

Good luck with your services Wires :)

Aeowulf - June 10, 2019, 2:44 pm

He doesn't need it, but vouch for Wires. One hell of a developer.

Miss those RF days. ?

Wires - October 11, 2019, 5:00 am

FYI theme designs are out of the window until MyBB 1.9 surfaces. Until then, I'm only taking requests for plugins and additional tasks. I barely see my PMs so best to add me via discord:

Wires #2306
