Thread: [Google Duo Is giving Up to 1000 rupees for Referral so Mates hurry up](#)

callmefinn - March 17, 2019, 11:24 am

Who can earn rewards

Rewards are based on where you live and the services you have.

Get a reward by inviting friends

If you invite friends to join Duo and they sign up, you'll both get a data or cash reward. To get the reward, you need to be eligible, and your friend needs to sign up with a phone number that's never been used with Duo.

Invite someone by sharing your unique invitation link in Duo:

Open Duo.

Above your contacts list, tap Invite friends / Share invite link.

You'll only see prompts to invite your friends if you're eligible for rewards.

Optional: Near your invite link, you can find and read the reward details.

To invite someone in your contact list:

Choose a contact / tap Send.

To invite someone not in your contact list:

Tap Share link.

Choose an app / tap Send.

Redeem a reward

Duo will notify you when you earn a reward. To get your reward, you need to connect Google pay account with duo.

Data rewards: You'll receive your reward automatically from your carrier after they process it.

Cash rewards: Sign in to Google Pay with the same Google Account you used with Duo. After your friend registers for Duo, you'll receive an email with instructions to get your reward.

If you close Duo while you're redeeming your reward:

Open Duo.

Tap More / Redeem rewards.

Follow the instructions to get your reward.

Get Duo using your friend's link

On your Android device, tap the link your friend sent you.

Tap Get Duo.

Install the latest version of Duo.

Open Duo.

Register your account with your phone number.

i hope you will Enjoy this offer Members thank you very much follow my thread for more interesting Information and tips or tricks bye bye for now

in case any problems just comment in my thread.....
