We use a specific software. We give you a lifetime licence which has been included in the price. This software copies our bets and make your bet automatically with your stake what you can set up by yourself.

Does it use API calls to my own broker account, or do I "hand over" my account to you?

You will manage your account, we don't need access to it. We are going to provide the tips and the software will bet them automatically with your preferred stake.

krizuss - March 19, 2019, 12:32 pm

are your profit based on winrate/stake management or just pure winrate?

i mean, you can lose 9 games and win 2 and still be in profit. do you show how much stake you put to profit over time or is that up to the buyer.

(Mar 19, 2019 11:59 AM)Demonata Wrote: [\[CITE\]](#) Will this work for usa though? The automatic betting?

The problem is with the software it can be used with betfair,Matchbook and Betdaq and you can't bet via these bookies in the USA however you can use our tips manually at your bookie.

our stake is always 1 Unit, our recommendation: 1 unit of bet equals 1/50 of your bankroll rounded down. with £2780 bankroll your bets will be: £55 (2780/50=55)

I see it now, so you wrote with a base bet of 25 you will get around 1000 a month.
With that being said, with a \$500 base bet, I would theoretically be able to make \$40000
You should be a millionaire by this point if this was really winnings every month, which is what confuses me.

Not trying to butt in, and I totally understand where you are coming from, and I also am waiting for some trusty vouches.

But, regarding \$500 base bet, I think the betting company would start to limit your bets before you make \$40000.

Yeah most sites in Europe atleast (All i know about) just limit you straight up and say you can't bet with them anymore and then there's the odds few that limit you down too like 1 euro bets and then at

that point it's obviously pretty pointless using that bookmaker again.

Best way around it that i've found is just using pinnacle brokers since limits are pretty high and when they do limit you down its not too a shitty amount you can still get decent bet sizes on.

But yeah in short when you start winning and become profitable you'll find yourself getting limited on alot of sites. Sucks when it happens.

i've already lost some money with sport betting. if it's really work i'll give it a last go.

krizuss - March 24, 2019, 4:31 am

i now tried the service.

i can legit say that all of the match results are fully legit placed on the website with no exceptions. both wins and loses.

a common scam method is only to place the winnings on the website and not the loses. this is not whats happening here.

if you are in doubt on how much this guy is winning/winrate etc. you can backtrack all the way back to 2018.

the matches are sent via email and are super easy to understand. i tried a #!%% load of paid betting services and i most say that this one takes it up a notch.

super service with a legit high winrate and almost a gaurentee profit every month if you got bank management/play with units.

would recomend 8/10

(would be 10 if he had an app or telegram/whatsapp/kik for notification on new matches)

ps. sry for bad english, im just a dane, calm down.

Can you send me a PM (til en anden dansker som ikke har posts nok til at sende PM endnu)?

AITRADER - March 27, 2019, 7:17 am

There aren't any matches since March 9 ?

Willing to try out the first plan (59\$), but I am just afraid I won't be getting enough tips during my subscription.

What if I get 2-3 matches and 2 of them are losing ones?

I saw your success rate and everything, I am just afraid I will be the unlucky one.

Was my comment removed?!

I asked: Why are there no matches since March 9 on the website?

What if I buy the 2week subscription and get 1-3 events and I am unlucky to get the losing ones?

Genuinely interested in the subscription if you reply to these questions.

The fact that you (or someone else) removed my post made a few minutes ago it means a lot...

Hey everyone, about my post above: yesterday I wrote that first message and when I refreshed I saw it disappeared.

It appears that this was a site issue and nothing related to this topic or my message.

OP has responded to me via PM and explained that all matches are posted on the website. I didn't figure out that those 2 'arrows' bring new lists with recent matches. I thought those arrows are for switching months xD .

Anyway, I am happy to see matches are posted everyday (or almost daily). This insures we can profit even with the 2 week plan, with no problems (as per their current win rate).

I will make a decision today. Will probably buy the 2 weeks subscription. I will update here.

EDIT:

Bought the 2-week subscription. Will keep everyone updated. Let's see. :)

AITRADER - March 30, 2019, 8:25 am

Here comes my initial review after trying out the service for 2 days.

Amazingly, all tips I received have been succesful. As the user above me, I am skeptical about everything if it smells like 'too good to be true'. I always think there is a catch somewhere. I am in now way convinced that this is all good and safe for longterm, however the results I received for these first 2 days of my subscription were all... succesful.

Now, I am sure there will be losses along the way, because it is impossible to win every time, however these first results give me hope that this team really knows their job well. Perhaps they studied many teams or they use advanced software to gain some statistical insights. I honestly don't know, but I am sure there is also luck/chance involved.

Anyway, here is a screenshot from my betfair account with all the bets made.

i. [imgur. com/ fmxgW4N.png](https://imgur.com/fmxgW4N.png)

(bets placed in the "Exchange" section)

i . [imgur . com/ xAA0ZhK.png](https://imgur.com/xAA0ZhK.png)

(bet made on Sportsbook)

I can say I am happy with the service. E-mails come in the morning/afternoon and are straight to the point with the list of matches.

Odds can change so it's best to start betting right after receiving the e-mail. Sometimes odds can increase, in your advantage. It has happened to me with one of the tips.

As a conclusion:

- it's good to have money management; don't be greedy and get a plan
- it's still a luck thing, but the risk is diminished by someone who studies the matches for you

I look forward to a long cooperation. I am sure I will decide to level up my subscription if these two weeks end well.

Amazingly, all tips I received have been succesful. As the user above me, I am skeptical about everything if it smells like 'too good to be true'. I always think there is a catch somewhere. I am in now way convinced that this is all good and safe for longterm, however the results I received for these first 2 days of my subscription were all... succesful.

Now, I am sure there will be losses along the way, because it is impossible to win every time, however these first results give me hope that this team really knows their job well. Perhaps they studied many teams or they use advanced software to gain some statistical insights. I honestly don't know, but I am sure there is also luck/chance involved.

Anyway, here is a screenshot from my betfair account with all the bets made.

I can say I am happy with the service. E-mails come in the morning/afternoon and are straight to the

point with the list of matches.

Odds can change so it's best to start betting right after receiving the e-mail. Sometimes odds can increase, in your advantage. It has happened to me with one of the tips.

As a conclusion:

- it's good to have money management; don't be greedy and get a plan
- it's still a luck thing, but the risk is diminished by someone who studies the matches for you

I look forward to a long cooperation. I am sure I will decide to level up my subscription if these two weeks end well.

Thank you for the honest review. We always try to do our best.

Of course there is no miracle and no catch at all.

We have all the background and the knowledge how to select the best tips to you.

As you mentioned it seems too good to be true i need to mention this is a very lucky session at the moment, sometimes we lose, but at the end of the day we can bring what we say.

In long term our tips always will provide the profit.

We are happy if you like our service.

Do you only do Soccer betting or you do NBA and NHL?

Willing to try this out but do you have a recommendation for immediate withdrawal like bet365 that works in Asia?

I'm currently limited at bet365 with 5\$ per bet. Was using a different betting program. Willing to try out the year one with the program if you can aide me with this.

Majority of our tips are soccer, basketball and handball. But we aren't sport specific so sometimes we send tennis,hockey tips as well.

If you mean program like auto betting that only works with betfair,betdaq and matchbook.

Are u able to post proof of winning like the other buyer?

throwaway5 - March 31, 2019, 6:17 pm

Just purchased 2 week subscription. Haven't received any type of conformation yet. Wondering what the next step is.

I'm going to post all my results here for the next 2 weeks with a \$50 base bet.

EDIT Got a reply and my subscription has started. I have some concerns..

This seems very difficult for someone from California.

"You are going to receive them [the tips] twice a day. First in the morning 8-10am(GMT) and if we have something useful tip you'll get them in the afternoon 3-6pm(GMT)"

Which means I will have to be awake between 1am and 11am my time..

Meaning I would have to go to bed at 6PM at the latest every day to be awake by 1AM for the picks.

If a pick comes out at 8AM GMT, how long of a window do we have to make the bet?

You should have received the answer but i put it here too.

So you get the picks at least 4-6 hours beforehand but usually earlier, for example you get the pick 10am(GMT) and the match starts 5pm-8pm(GMT) but we try to send the picks a couple of days earlier if it's possible.

throwaway5 - March 31, 2019, 11:12 pm

I guess I am the 'other buyer' :) .

I can confirm yesterday tips all won , 3/3. I think I subscribed at the best time possible, I got only 1 loss since joining. I deposited 100 EUR to start and now I have about 190 in balance.

Note: at first I played 10-15 EUR bets, to test the waters. I have now started to increase base bet to 25 and will probably increase soon gradually. NOTE this depends on your overall bankroll. They said to calculate base bet like this: $1/50$ of your overall money per bet (if I have 1000 EUR, I will use $1000/50 = 20$ EUR per bet).

Proof of last 3 matches:

prntscr. com / n5t5pb

There were 3 tips offered for today. Curious to see what April will bring.

Now, I am 100% transparent with my subscription (I believe everyone should be upfront with all methods to be honest). So, I had one issue yesterday: I saw a match on their website that WON, but was not given to me during my subscription. I e-mailed them and the reason the match was added now is because they gave the tip a week earlier. Sometimes, they claim to provide tips for future events (like 1 week in advance). This reason is acceptable and it was only 1 match from 9-10 I received.

I will, like I said, continue my subscription (probably on a monthly basis) as long as results are good. So, I will be able to check whether they really provide future tips from now on.

Don't take me wrong, it is just a match. However, it is a practice to add matches that weren't tipped and to claim they won, without anyone having the result beforehand. This is to help with the monthly ROI percentage. Again, I do not think this was the case, as it was only 1 match.

Best wishes and hope I didn't upset you guys for saying this. On the contrary, this proves you're transparent with customers and this will help you in the long run, if you're serious and legit.

I made a joke in the PMs and Thurman got a little testy so I felt bad.

Anyway, I thought the tips were BS because they were really obscure and of leagues I have never heard of. I did not even know where to find the scores online for the games lol.

But they have worked. I have not been able to bet all of the time since the site I use does not have all of the options to select.

I started off with around \$5 and have made about \$25 back.

Keep it mind, this is not even from using all of the tips to bet.

So in essence, it is actually pretty good.

We are planning a new range of pack which is going to be specified to Nitrogensport. it means you'll get tips what you can find 100% on that bookie. It's going to be the same split 2weeks,one month and a yearly. Currently we can't offer autobet for this option, but we are working on it. you will be able to pay for these pack only in BTC.

I added some of your reviews to our thread so if someone is looking for them now it's easy to find.

Nitrogen sports is great. I see people betting 1 bitcoin (and more) all the time.. implying they have very high bet limits, if any.
Also, they have instant cashout unlike most other online bookies. I've successfully cashed out from them multiple times.

Yes this is why i said the problem starts from -30 units :) but if you have the recommended plan you'll still have 20units so then still have the chance to build back. Of course we will never reach that point i just wanted to explain the worse case. We have never had more than -15 units in a row and we could save that situation to the end of the month. So this is why sport betting is a long term investment, you can't make profit in one day sometimes not even in 2 weeks. In a month time we can guarantee the profit, this is why we give full refund with the monthly package not with the 2weeks one.

So no worries just do our scheme.

Which is nothing in this business. we only do betting over 1.7 odds but usually over 2 so
In a 2week term it is nothing. Don't want to make money in 2 days with sport betting
It needs time if we have -15 unit after 2 weeks then I'll understand the complaining.

AITRADER - April 4, 2019, 3:09 am

Hey, I also follow the website pretty frequently.

I asked them about this and looks like they added April.

[betperfectpro.com / 2019-april.html](#) (remove spaces)

We are sitting currently at 4 + 2.8 units at loss ($-6.28 \times 25\$$ in my case = 157 \$ loss in April). That is from 100 \$ main investment I made at first. To regain my hopes, they must win a bit these days to climb up and recover the win rate.

I got scammed by another dude with his "fixed match" the other day. It reminded me of how dumb I am sometimes to believe all crap from all people. I really hope it's not the case with BetPerfectPro, but in the same time something tells me I need to be careful.

edit: to clarify, "i need to be careful" not because they are scammers, but because losses might bankrupt me before stopping.

9 losses 5 wins in 4 days. Down \$140~.

I checked the sites results for all of 2018 and and 2019 up until now. 9 losses in 4 days is by far their worst result ever.

Second worst is 7 losses in 10 days or so and it was still profitable.

Turns out the exact time I subscribe is their worst week in almost one and a half years. That's extremely unlucky for me.

I don't know, but I think we should act more carefully.

I am just leaving this thought here:

- What if the past results are all faked and they started doing this gamble tips thing just recently for HF? The site is registered in January this year and it is mainly created for HF. Google it and you won't find many results.

The losses started to add up. After these past few days I am even afraid to place new bets.

I think there is a chance we are being played. Of course, we paid for this and we accepted the 'risks', this is what OP will say. However, we paid based on the history we saw you have with bets. And like the user above me said, it is highly unlucky to have so many losses. It hasn't happened for quite some time. Why now?

I am just leaving this thought here:

Yes, I am playing it safe atm til I see better results. Although, they did go on a 12-1 run at the end of last month I believe (I was not signed up then, but according to the posts here it was a good run).

To be fair, they have had a couple of 4-loss-in-a-row before. But that does not change the fact that the beginning of this April must be the worst performance for their service so far.

Their April spreadsheet is not up to date as of this writing.. so here you go:

01-04 Lost
01-04 Win

Is this still on? no more updates on site..

Thurman Murman - April 7, 2019, 7:13 am

Hi Guys,

Yes we are still on but we haven't had results like this for a long time. We don't know what is happening but in the most case the results of the matches are unique, never ever had happend so all the statistics and backgrounds show we need to send those tips for you.

Summary is we are cracked on the tips every day as always but it's a bad session. If everyone does the 50 unit scheme then everything will be fine.

So no worries.

Other tipster sites who provide better results they are liars or work with odds like 1.2-1.4. We always send 1.7 so if a tip wins then it builds back your bankroll quickly.

Other i update the spreadsheet everyday i can make mistakes but basically it shows the truth we don't try to hide anything.

Nopee - April 7, 2019, 7:27 am

Hope you update your site aswell? Or have a downloable spreadsheet that you update daily or an access to a spreadsheet.

really bothersome that users are updating it on a thread.

Getting very close to calling bullshit here guys.

Until they show better results, please don't subscribe. Their service is very expensive, but the results so far, does not look good (they had a good run yes, but overall, it's not good enough). Wait for them to show better results!

throwaway5 - April 7, 2019, 11:44 am

0/4 today.

I stopped placing bets and am just tracking results now.

AITRADER - April 7, 2019, 12:50 pm

Agree. Today I placed 5 eur bets instead of 25. And it was a good decision.

Will just follow from now on. At least for a while.

Patriot - April 8, 2019, 12:58 pm

3/3 wins today, nice. I'm still being careful about my bets though.

Banana - April 8, 2019, 1:37 pm

So why are there so many people "buying" access to his betting group but he has ZERO contracts on hf? Thought that was not allowed?...

UberPete - April 9, 2019, 2:04 pm

Results for today...

2 losses and 1 win

Patriot - April 10, 2019, 10:08 am

Wasn't sent any tips today.

And you bought his service without a contract? idiot

AITRADER - April 17, 2019, 4:27 am

Aand... no more updates. Website's gone.

Confirmed scam?

Probably.
