I haven't exactly been on HF the past 5 or 6 months due to the busyness and other craziness that life has to offer but what are some of the most interesting things that has happened here since then?
:D ?

I never really posted much but I did really enjoy reading things on HF. I miss this place <3

Edit: I think I did visit here once or twice at the end of the year but I didn't get the chance to look at anything.

Rep got reset and its now popularity and doesnt mean shit. Here is +5 for welcome back.

Contracts were introduced with B ratings that actually mean something and you get one after each deal completed. They are a must use in the marketplace.

Bytes were introduced which you earn by posting and you can gamble them at:

<https://hackforums.net/blackjack.php>

or

<https://hackforums.net/slots.php>

Or you can buy awards with them.

Welcome back.

More changes are covered in a thread by Vitani in RANF.

Ah, I do remember hearing references about upcoming changes around the time I had to take a break. Really cool to see all these new features being implemented on the site. Thanks for the

welcome back!

Had an account from 2012 that got banned because it looked like it got sold to a scammer. 1 month online time. almost 3k post. HF was literally home to me. So much more activity back then though.

I went ghost around 2013. Somewhere around 2015 someone hacked my account and scammed 5 people.

(You can see the reports and all the nonsense [HERE](#).

The guy doesn't even speak like I do. But oh well. The community is much more inviting and less toxic than then. I just wish it could be that way with all the activity it used to have.

Bytes, would be the most interesting thing. Many features have spouted from the idea.
