The e-book / method is easy, short and straightforward

Requires chatting to some people but I can definitely see you making good money with this it you take the time. Also, I think he has some sort of premium package where he hooks it up fat with a website that will help even more . All in all, I don't recommend this as a source of main income , but could be good for some side income :)

I'll happily take the vouch copy as this is something I've worked in before and can give an honest review on!
