Thread: [VPN services and Server support | No Logs | Offshore zone | VPS+VPN | Useful Scripts](#)

arions - March 18, 2019, 12:52 pm

Hi! Our team offers services for installing and setting VPN and servers.

Our vpn differs from other vpn providers:

- 1) Besides vpn you are provided with fully working vps ?
  - a) Personalized configurations for your vpn
  - b) Regulated logs
  - c) Generating your own services, such as http
  - d) There is no 3rd silent persons, after setting up you are going to be the only owner
- 2) On the server with a small fee, we'll put you on a vps server, scripts ?  
Cleaning up paging files, ram, cache or Kill system scripts  
This script runs continuously  
Or you can run it with one simple command
- 3) The location of our vps is exclusively on the checked offshore zones ?
- 4) Full safety and anonymity of your data and identity are guaranteed ?
- 5) Making the various bundles for all sorts of purposes ?
  - a) vpn + top
  - b) vpn + vpn (Buy 2 different vps)
  - c) vpn + p2p (This feature does not available at this time)
- 6) Besides our own servers, clients purchased servers are configured as well. ?
- 7) Providing services, helping to choose the most favourable server, to support and set it up.  
(Specify details in Jabber) ?
- 8) As purchased, we additionally share some security tips (Useful extension for browser) ?

For prices and selection support of the best option for you, please use Jabber's contacts:

Do you still trust the nearest vpn source?  
They write logs but you do not know?

Use vpn opensource! Use our service!
