There are no pdfs or elegant covers, the seller initiates a conversation with you and explains you step by step. ?

Obviously it is a method that is based on bets, which as we know can be lost or won. The seller offers a mentoring which is that he makes a call on discord share screen to see your desktop and tell you exactly what to do. I am a total novice in this betting thing, never bet more than \$ 2 and always lost, but now with 20\$ only I got 32\$ dollars of profit in less than 5 minutes. ? ?

The seller is friendly and is willing to answer any questions, have plans in case you lose a bet, in order to recover in the next and profit. It seems to be a good method and I hope it continues like this, will update soon!

Overall this is a good product! Keep bringing good content! Thanks!

First of all, it's not a script.

Second, the price is low I can say based on the potential my method has.

Third, If those 4 members were my alts, why do I have only 1 vouch from a new member? :)

why would you ever even have 4 members matching?

only reason is public wifi, which you wouldnt be using if this method worked.

just warning people, this method seems suspicious as well as OP

literally what I said, I doubt this is anything new or useful.

edit: got a vouch copy, here is my review:

1. not a fan of this method, its blatant gambling which isn't even a unique method.
2. uses a sites autobet feature.
3. requires an initial investment.

OP did help me set it up, and was fast to reply. Also gave me 1\$ worth of ETH to test out the method.

so I guess method does work, just a risk as usual.
