Thread: [Pet Stat Instagram | Amazing Engagement | OG Email included](#)

The Red Skull - March 20, 2019, 8:21 am

Sold, thanks for the interest!

Hey there,

I have a really nice account for sale here. It's a pet niche that has amazing engagement. All the engagement is organic, the comments are genuine. This account is not in instagram DM groups, it draws its engagement from targeted hashtags.

Likes vary on popularity of post, but it's 2k+.

The account has a lot of DM offers for promoting pet e-commerce sites, which is an option for where to take the account when you buy it.

The account comes with the OG email, verifiably the OG too. The OG email account still has the "Welcome to Instagram" email with the account name. And the account name has never changed.

Great account here, looking to get some offers.

PM or Post for the @!
