Thread: [CypherIT Crypter Resell Cheap License](#)

raghavsood999 - March 21, 2019, 6:16 pm

Hello, i am selling my license for CypherIT Crypter. The license is for 1 month and i paid \$25.00 USD for it. However it's expiring on the 15/04/2019 starting from today's date.

So for that long i have to say i have to sell for half price. It's a very decent Crypter.

How to get activated:

1. I have already got the product activated. The username is: raghavsood999
- 2 . Extract the archive i send you, click on the crypter and run as admin.
3. You will see a HWID copy link. Copy HWID then join the discord channel. Find the support staff : #Artist or the Admin of CypherIT on their discord channel.
4. Send them the HWID. I will send you the serial upon payment via Bitcoin to my bitcoin address at : 1Cy1L6x2VX8oBJNyNaCYEAoQXgw93nWbEx or paypal: raghavsood999@gmail.com for safer payment.
5. I will remove the crypter from my computer as soon as you send the money through bitcoin.
6. On discord channel jot down the serial i send you, and send that to the admin on discord. He will activate the crypter for you on your pc.

Do you have permissions to sell this?
