Have you read the Tokyo Ghoul Manga?

Yes I have, Tokyo Ghoul 1st season, 2nd season

And Re: However during all the manga i still held a small grudge against the Doves.

oo nice I never would've thought of Near and Mello.

Can I ask what specifically about them do you dislike?

Pain(From Naruto) cause he revived the whole village in the end. No villain would do that. And people still consider him one of the best Villains.

Gato from Naruto guy who used zabuza

Ah I see - I guess that's fair to hold a grudge but personally I really liked a lot of the doves. I never really even thought of them as the bad guys!

I feel like they're unlikable because they didn't take enough time to flesh them out for me to root for them to take down Kira. They just kinda show up and finish the job! I guess I don't like them more because of how they were handled rather than how their characters were written.
