Thread: [Is Captain Marvel worth watching?](#)

Merekkai - March 22, 2019, 10:37 pm

Is Captain Marvel worth watching before I go see Avengers: Endgame next month?
I have been told from a few friends that the movie was pretty bad.

OneEightSeven - March 22, 2019, 11:05 pm

Yea movie was meh. But like any other marvel lore movie it's kinda boring. I'd just wait for end game but if you wanna know her story go for it

Olympus - March 22, 2019, 11:41 pm

I saw it last night and i thought it was awesome.

Menes47 - March 23, 2019, 9:34 am

I would say it is. i mean its a movie, its a comic book movie so why not.

UrLocalNewbie - March 23, 2019, 10:53 am

I have been told from a few friends that the movie was pretty bad.

I didn't personally see it, but my friends (Marvel and non-Marvel fanboys) saw it, they think it's kind of boring tho.

The producer came out and said "What people don't like about the movie is seeing a female as the lead character" when he saw bad reviews and ratings on it, which just made it get even more bad reviews lol.

PatrickJaneHS - March 23, 2019, 11:02 am

This is a very bland and unexciting film. The real issue was that Captain Marvel had no discernible personality or emotions and so I had no investment in her character.

The rest of the cast did a fine job. Samuel L Jackson as always oozes charisma and presence from every pore.

I can't really understand how she managed to give such an unconvincing performance.

Otherwise the story was pretty standard stuff with a plot twist you could see coming a mile off. The action wasn't very well done or exciting. I thought the cat was a novel touch and I enjoyed Fury's interaction with it.

Overall it was a disappointment and Marvel will need to do a lot better if they intend to have Carol Danvers helm the franchise.

SinisterZ - March 29, 2019, 9:21 am

im only gonna watch it because some spoilers were in after credit scene in infinity war it is probably connected to endgame somehow

Encyklita - April 4, 2019, 1:12 pm

Totally not worth... VFX - realy bad, Story - boring... 4/10 - imo

CallMeCrazy - April 8, 2019, 7:17 am

Captain marvel movie wasnt that good, only watched to know what she gonna do in Avengers

SinisterSmile - April 8, 2019, 11:12 pm

(Apr 8, 2019 07:17 AM)CallMeCrazy Wrote: [CITE](#) Captain marvel movie wasnt that good, only watched to know what she gonna do in Avengers

Yep i can agree with you, Captain Marvel was 90% story and 10% action. However in the Avengers it will be way different story :D

Pancake Boat - April 8, 2019, 11:16 pm

I saw it and well... If I weren't high I probably would have left before it ends.

I found it pretty boring, but then again - I know people who loved it.

? Heisenberg ? - April 9, 2019, 6:53 pm

Time pass. Watch only if you are a hardcore marvel fan.

NinjaLeaks - April 10, 2019, 8:57 am

I wouldn't say it was "Bad", only thing that might have been a bit off setting is that she acted a bit too much of a bitch in the movie lmao, if your a marvel fan tho and want to have a backstory before seeing her in end game, go watch it.

?rescent - April 10, 2019, 11:09 am

I heard from some friends that it was boring and repetitive, up to you to decided though.

Skid - April 11, 2019, 12:20 am

Felt like they pushed the "feminist" agenda too hard

jellyb - April 11, 2019, 7:02 am

kind of, ye I think I like it, maybe would recommend. Cheers.

degeran - April 16, 2019, 5:02 am

I went to see it to a Cinema, have heard that it's pretty centered on the whole feminism thing, have noticed some of that in the movie, but besides that it wasn't too bad, not the best one from Marvel movies but still not bad.

cybermager - April 17, 2019, 9:18 pm

I thought the movie was hysterical. The average person either loves it or finds it like an average movie.

Bananabread90 - April 20, 2019, 12:15 pm

I'm going to see it for sure but I'll torrent it someday. It's somewhere on the list, but not very high. I'm just really tired of the whole marvel franchise the fcks I can give are less than the total movies the franchise has.

Mortality - April 20, 2019, 12:19 pm

The movie was decent, wasn't up to marvel's normal standards, in my opinion...

Its more like the GotG movies, its meant to be a little more funny rather than action packed and serious.

I don't like that it feels like they only released this movie to tie together End Game. If they had dropped this two years ago, and a second movie, and then end game, it would have felt less rushed

and more of her own story, rather than just a prelude to End Game.

keijifukami - July 6, 2019, 12:58 pm

I made the mistake of watching end game before having watched captain marvel. -_-

Linux X - July 13, 2019, 3:26 am

It worth if you want 80% story and 20% action.

?Satanic - July 13, 2019, 4:17 pm

Well I would say yes, but its really up to you. I didnt saw Captain Marvel, before I saw the avengers, but it worked out fine

Lindros - July 13, 2019, 11:10 pm

It was decent but in my opinion I feel like it was a bit over the top.

I also feel like there are way too many superhero movies.

ririki - July 14, 2019, 9:52 am

i never saw neither of it and i don't think i miss something

sparklykitty - July 23, 2019, 9:47 am

Watched the movie on a day of premiere back in March and watched couple more times. I enjoyed it!

Sola979 - September 21, 2019, 1:07 pm

Definitley not and I havent even watched it.

Silent_eve - September 26, 2019, 11:47 pm

sure its a marvel movie its a must watch one time at least especially if you like woman power!!

GENT - October 3, 2019, 12:41 am

It's not really a game-changing movie in regards of anything. Just your basic Marvel movie in between huge movies like Avengers.

But I did see a couple kids (girls specifically) be really excited during the movie. More than usual. Maybe it had that effect because the main character was a female idk.

Luccido - October 4, 2019, 5:11 am

I think Captain Marvel was fun to watch. Just don't expect too much and you'll be fine.

gloccforty - October 4, 2019, 2:55 pm

It was just ok I wasn't huge on it really waste of money
