Thread: [\[FREE API\] Skype resolver, PSN resolver, Cloudflare API \(Censys.io alternative\)](#)

LimitlessJeff - March 26, 2019, 7:36 pm

WELCOME!

Uncover.ICU is giving away API's to promote our new service,
The API has three different settings for different services.
Cloudflare resolver, PSN resolver and IP2SITE.

Cloudflare resoolver:

- Fast.
- Not just subdomain scanner.
- censys.io alternative.
- Zero Blacklists

PSN Resolver:

- Runs through a DB,
- Connected to three different sniffers.

IP2SITE:

- Fast,
- No Blacklists,

Configuration:

PHP Code

```
<?php
```

API: [https://uncover.icu/api/index.php?key=\\${KEY}&type=\\${TYPE}&data=\\${TARGET}](https://uncover.icu/api/index.php?key=${KEY}&type=${TYPE}&data=${TARGET})

\$key = The API Key you purchased.

\$Type = The different tool you want to use. (cf , psn, ip2site)

&Target = The target you want to resolve.

Example:

<https://uncover.icu/api/index.php?key=promo&type=cf&data=Uncover.ICU> - Resolve Uncover.ICU using our CF resolver.

<https://uncover.icu/api/index.php?key=promo&type=ip2site&data=aitch.cf> - Resolves Uncover.ICU using our IP2Site.

<https://uncover.icu/api/index.php?key=promo&type=PSN&data=aitch.cf> - Resolves UNcover.ICU using our PSN Resolver.
