Good luck with sales though.

Anywhere in this range is fair price if you ask me.

Do note that you will need more than 28k bytes to transfer all 28, but it will only cost 28k bytes in fees. It cost 6k, and 1k bytes goes to bytes fees. So you will actually require 28k + 5k to be able to trade all them, then you would be left with 5k bytes in the end
