BLOCK THIS

I want to share this to all of you. I use an Adblock and I hate it when there's a site that blocks your Adblock! This will help you get rid of that.

I'll put it directly on the thread so don't pm me since I won't reply, I'm saving storage space. Feedbacks would be great!

the official site

Code <http://reek.github.io/anti-adblock-killer/#filterlist>

filter list (manual)

Code <https://raw.githubusercontent.com/reek/anti-adblock-killer/master/anti-adblock-killer-filters.txt>

You can click subscribe to enable it but if it won't work, you can copy the filter list manually and add it on your adblock. For mine (uBlock) I went to filter lists > custom (bottom part) > import > paste.

I hope this will help you the same way it helped me.

Hopefully this works, thanks for this homie!

Adblock is alright, just don't forget that ads often are what feeds the content creator. So, sometimes just click on those fucking ads, so the guys content you are eating can eat aswell.

Yeah, we shouldn't use Adblock, but it's always better to have one haha!

You're welcome everyone! Enjoy full functionality of your adblock! Don't let others block your adblock!

I really needed this. Thanks, OP. I always have to turn off AdBlock to handle such notices. I'll try your filter. Hope it works. ?

Yeah, it's such a hassle for turning off Adblock just to get in the site. You'll get annoying ads in return of what you went to the site for.

Hope it works for you! It's not actually mine tho, just sharing it!

I'd rather block making money from any platform then to click ads like some dumb robot.

I will only click ad if pewdiepie is the ad.

Thank you for the great contribution , I personally use Brave browser and have no use for this. But it

would have helped me so much in the past. ?

This is a lifesaver for me especially when I download stock images from a site with anti adblock on it. I use it almost every day and this really helped me. I use brave browser too but only on my phone. Didn't knew it had anti block-adblock on it.

Astrogen - April 26, 2019, 3:55 pm
