Thread: [need help with loki 2.0 android botnet](#)

anonav - March 28, 2019, 8:29 am

i've hosted d admin panel in cp successfully when i click build apk it builds apk named app.apk but when i click on download its not downloading

even i've hosted d admin panel with xampp n installed d apk tool but still same problem i cant download d apk from admin panel

tnks in advance ?

Look at the date of the last post, it says 2019. What you need is a pair of glasses, not a botnet.
