Hey guys ,

Payment Proof :

**Joca97** - March 28, 2019, 5:28 pm

Dont bother guys,its just roulette and martingale,everybody knows this and loses in the end.

**WallStreetMentor** - March 29, 2019, 2:20 am

Martingale goes against the main and fundamental rule is investing or making money in general, NEVER risk more than your potential reward, and with a losing streak in a martingale let's say your initial bet was 1\$ with only 4 losing streaks in a row you are now risking 16\$ to make 1\$ in your next bet... That's stupid and unsustainable, be careful guys don't waste your money, invest it wisely.

**amadeous** - March 29, 2019, 4:10 am

Well for me the method worked and i made 573\$ profit from it as you can see you wont make money if you dont invest and take risks

**brandon255** - March 29, 2019, 5:39 am

Lol who would actually do this when they need money?

**Handsome Hawk** - March 29, 2019, 5:11 pm

**Chroem** - March 31, 2019, 3:27 pm

We all know martingale strat. On most sites it works in the beginning to create customers, but after that you are going to get "fucked".

**amadeous** - April 4, 2019, 11:36 am

you just play once to make the profit and try somewhere else

**diablospartan** - April 5, 2019, 10:19 am

I will try this method to see how it goes i am curious about it

**amadeous** - April 16, 2019, 6:10 pm

goodluck man dont forget to post your results here

**Everex** - April 17, 2019, 2:03 pm

You can really win with this. But its better if you wait till its the same color 3 times, then start betting. I know there is still 49-49%, but still.

**Moskov** - April 18, 2019, 3:05 pm

Will check this when I get some time

Thanks for sharing !

This was old 10 years ago.

As with all strategies..

It will fall short at some point, else there would be no casinos

**masterhacker** - April 22, 2019, 10:19 am

this guy made a fake website in his description, don't trust him. its not the actual casino website. what a sneaky boy. thanks for letting us know your method of scamming. he's trying to get CC info by you buying coins on his site and then he steals all your money.

They have min and max bets + 00 green fields for a reason.

You can only lose 6 times in a row before you hit max \$10 with \$0.10 bet. thats can happen fast. Its better to find different site, but like others say. classic martingale. in the end you will lose,.

Martingale is not a "good way" you are lying to everyone here. If you are saying it's a good way, you are disagreeing with math and that's just stupid.
