Thread: [So my friends mother working as...](#)

duck - March 28, 2019, 6:09 pm

So my friend has mother working as cleaning woman, she works for herself and she is self-employed.

My friend work together with his mother.

It's very interesting, they can make a lot of money if you know how.

She deals with many clients a day, and sometimes she came to something extremely dirty and sometimes so much clean like what the fuck they want to clean here but whatever.

Interesting part:

She went to clean one house with my friend and some other people, it was the city we live, me, my friend and her mother and it was some guy around 19-22 and so when my friend cleaned his desk and shit, he moved the mouse a bit, computer turned on and it was unlocked.

There was Hackforums.net opened, no joke. I dont lie, he was away and so we wanted to find who it was however it was Logged out, fuck.

We tried to check for the autofill but nothing, pretty sad.

So if it was some of you, im sorry for doing stuff on your computer but yeah you can PM me.

TLDR: My friend has cleaning company with his mother, we went to some house and there was a guy around 19-22 he had hackforums opened however he was logged out, we couldnt find his username. If its someone, reading this post, i am sorry for doing stuff on your computer but you can PM me.

That's sounds quite creepy, actually. ?

Weird flex but okay. ?

King Bob - March 28, 2019, 8:07 pm

I am uncomfortable reading this

iNviZ - March 28, 2019, 8:24 pm

Man, this is definitely a creepy felling thread but very interesting, would be cool if you found him. You most likely are going to get some trolls saying it was them lol

typhoid - March 28, 2019, 8:25 pm

there was some kid in my village on hackforums he was bragging about it on facebook i found his account and trolled him a bit with some of my friends and then revealed it was me lol at the time i had over 2k rep and was in a bunch of groups so it blow his mind and he called me a big shot and said he couldnt believe it

Crypt - March 28, 2019, 8:30 pm

You could've gone to his history and searched "profile" it would bring up the name of recent HF

profiles he visited, one is bound to be his considering I usually visit my profile quite frequently. That would've been crossing a line though.

If you really wanted to know why not just say that you happened to notice the forum open and say you're apart of the forum as well? As long as you went about it the right way it wouldn't be awkward.

Mr. Corleone - March 28, 2019, 8:33 pm

Should've fucking jizzed over his mouse to make him your HF bitch.

BTC - March 28, 2019, 8:36 pm

The respectful thing to do when you wake up someone's computer is to put it back to sleep and not look at their stuff.

If somebody did this to me and I came across the post on HF to confirm it did happen, I would just never use that cleaning company again. For obvious unprofessional reasons.

Same as I'd feel a little violated lol.

Exactly, what if I had some personal stuff on my PC like my desktop background is my wife naked or something?? I'd knock a motherfucker out for going on my PC without my permission I can tell you that much

ucplusx - March 28, 2019, 9:53 pm

wow, is it like finding treasure?

Of course not, as long as you don't open a virtual wallet, everything becomes understandable. doesn't matter.

Ahmad - March 28, 2019, 10:11 pm

You must be gay messing with another guys computer, and even gayer admitting it and making a thread to creep everyone out who has a cleaning lady. Thanks

truth hurts. don't do it again op

Effexion - March 29, 2019, 3:13 am

You had no right to start snooping around his PC. Highly unprofessional and I hope whoever it was sees this and fires your friend's mum. You shouldn't be in a position of trust.

SIM-3257834 - March 29, 2019, 3:16 am

Op violated me, I'm going to be pressing charges

Deal - March 29, 2019, 3:36 am

This thread was nothing like I expected.

So my friends mother working as...

There's so much stuff you could put in this sentence that would make me less surprised.

NERO - March 29, 2019, 3:38 am

Can you tell your mom not to go through my dildo draw again?

Also she left the kitchen side filthy, She's fired.

I should have done that next time, like we had to do it fast, we didn't wanted to get caught so you know, a lot of stress was there

As I said my friends mother is working for her own, she's self-employed.

Only way that could happen is lower the reputation online and between people, as long as he don't know who it was.

She could fire her son tho.

He's not our first time customer and not the longest too but well I don't know..

Jesus Christ! Did you just actually say that? Who do you think pays her? The people she is working for are the people that can fire her.

Mercury - March 29, 2019, 4:01 am

I've only ever met one other person who has an account here and the guy didn't even use it anymore when we spoke about it. This was a long time ago. I'm sure his account has been pruned by now.

Rip.

Well technically yes, but she is working for herself.

She has a lot of other customers.

Not my problem anyway.

Happeh - March 29, 2019, 4:22 am

I've never met anyone IRL on this site and I hope to fucking Christ I never do.

Dope - March 29, 2019, 5:01 am

You can read thread titles, but you can't actually read the actual thread.

If you're looking out for a homie, next time Windows+D to show desktop. Even if there is a fat booty on the screen, Windows+D.
