Thread: [\[League Of Legends\] \[NA\] High Elo Account/Boosting](#)

ZaunsYouth - March 28, 2019, 9:27 pm

I am selling a hand leveled master tier account on the NA server. The account is master tier with 55% winrate, It gains 20 lp per win and loses about 12-13 per loss. It has 106 skins and All Champs a couple legendary skins and some victorious aswell also lots of legacy skins. I am looking for a good offer will not accept any lowballs I am looking for \$750 PP you can message me for more information on the account as I do not want it getting banned if I post. I am also selling boosting services
