Thread: [Sticky Thread using Bytes](#)

Hopsin - March 29, 2019, 6:26 am

Hi, Not sure if this been suggested before. Anyway:

I think members should be able to use/request a sticky thread by redeeming bytes either by themselves either after approval. I think it will help forum activity much more and value of bytes will increase as well.

Thoughts? ?

Notorious - March 29, 2019, 6:28 am

Definitely think upgrades / addons should be purchasable via Bytes too. It probably wouldn't be profitable for Omni but would definitely be a long-term investment which would increase the value of bytes.

flavoral - March 29, 2019, 6:30 am

Nah. you can sell your bytes and then buy sticky.

Revenue from sticky and others help fund the forum

Agreed.

ririki - March 29, 2019, 6:43 am

In my opinion, I don't think that's going to be possible.

Because the bytes would end up somewhere and that would be 0 profit for HF/Omni.
