St. Dismas - March 29, 2019, 11:09 am

TIRED OF BUYING EMAIL LEADS?? START GATHERING YOURS BY YOURSELF AND EVEN START SELLING TOO,
PASSIVE EMAIL LEADS SCRAPING METHOD (WITH NEEDED TOOLS INCLUDED)

I scrape and gather emails on a daily basis due to demand, i sell email leads for about \$15-\$30 per list(30k-60k) and i make a lot from doing just that daily, the strangest thing is that i never had plans of selling or actually even knew i could make a lot from scraping email leads, i didn't always use to gather emails myself, i actually learnt how to gather emails for email marketing and some other personal use, i was always used to the process of buying from vendors(which i am now) on a regular basis, this was very capital intensive, and i got tired of spending money buying email leads all the time so i went and spent a couple bucks and learnt how to get them myself.

You too can also learn how to scrape and gather leads in this simple and detailed eBook i made, with the tools that you would need included in it.

- * You'll learn how to extract and compile business mails(of target COUNTRIES & choice TYPE of companies) from web pages.
- * Say bye bye to email leads vendors (save money and scrape leads yourself for FREE).
- * Say bye bye to Honeypots, Spam traps & fake email leads(some lists compiled by vendors are sometimes randomly generated nonexistent mails mixed with a few real ones).
- * You get to make extra cash on the side from emails you gather by selling them on different vendor sites and forums.
- * Lastly and most importantly unlike other methods out there this style of email leads gathering is PASSIVE and you can do it while you sleep!!

You can get this method now for just \$150

First 5(five) customers to make purchases get 50% discount, customers interested in this limited discount should drop a comment under this thread indicating their interest.

- * This package includes a detailed description on how to gather leads all by your self,NO EXTRA COST.
- * The necessary apps you would need are also included, NO EXTRA COST.
- * Further help/assistance and tips would also be available after purchase, NO EXTRA COST.

Accepted payment methods: PM(Perfect Money), BTC(Bitcoin) & ETH(Ether)
