Am I able to buy ub3r if I buy the temporary l33t upgrade? Or do I need the perm l33t upgrade for ub3r?

If you purchase the 6 month version of l33t you can purchase ub3r however once your 1 year of ub3r ends you will be moved back to user.

If however you purchase l33t permanent and then ub3r, once 1 year of ub3r runs out you are put back to l33t, so it's worth just buying l33t permanent or you have to purchase 6 months of l33t over and over again as well as the ub3r subscription.

Hope this makes sense ?

If you purchase 6 months of L33T you are able to purchase Ub3r. To get into Ub3r you must fulfill the requirements which you can read on Xerotic's thread [Official Ub3r Upgrade Available](#)

Requirements are:

L33t Membership - An account must be L33t to be upgraded to Ub3r
