Thread: [Make money using casino cashbacks](#)

4ground_daemon - March 30, 2019, 7:37 am

Hey guys I want to show you a method I have been making a small amount of money on the side using casino cashbacks.

So what is a cashback?

This is where you sign up for a service or buy a company's product and they will give you a an amount of money back for using there service.

So how can we make money from this?

You want to sign up for a service called Topcashback which is a company that gives you money back for products and services.(sign up here [bit.ly \[WARNING: potentially infected\] /2UIKVgv](#))

Once you have signed up type in "slots" in the search bar at the top and filter it by "highest £" which will show you the highest offers available.

You want to click on a offer for example the "betway casino cashback" offer and click on "get cashback now"

You will see once you click on an offer how much you are required to wager to get paid and how much you will get paid. The betway offer for example requires you to wager £30 on any casino games and it will pay you £31.50 in cashback. not only will you 100% make atleast £1.50 profit from the cashback but if you wager correctly you can also make a lot more.

I would only recommend either playing roulette and betting on either red or black constantly till you have wagered your £30 (if you lose just double your last bet if you win go back to £1) or play a slots game but do the max amount of lines but the lowest bet. Once you have wagered £30 even if you only have say £25/20 left you are still getting £31 cashback so you have money.

Even the offers that require you to wager £10 but only give you £5.25 cashback you can still make money on using this technique. I started this a few days ago and am already up £43.

You can also use this site when buying products generally as you will get a percentage back.

If there are any questions feel free to ask. I also have a few other techniques that are good for a little side money if people want them.

Just an update, there's a really good casino offer today(currently 31st march 2019) for the betting site ComeOn where they are offering 30 free spins on guns & roses slots if you wager £20 on games.

I just wagered £20 using my roulette doubling technique which put me to £26(so £6 profit just for qualifying for the spins) then I done my spins and won another 6.50 so after 5 mins of work I was up £12.50.

Ill keep updating any on any other casino/betting site promotions that can be used for profit

Not sure if I understand how do you make a profit by paying 10 pounds and only getting 5.25 back?

I think most give MORE cashback than the initial wager. So sign up to casino a, bet £10, and get £10.50 cashback. So you're +50p with the chance of making more if you win.
