Hello,

Recently Ive discovered a site which allows to send mass(bulk) mails to inbox and which allows unlimited sends.

It has a 100% delivery rate.I will not send a test email because it will reveal the company URL.

Price is \$250.

You can send anything you want and have as many accounts as you want. :)

I give this five stars and well worth the money as things like this cost thousands.

I'm usually skeptical to such services but this service is superb. Easily rated A+!

Hi, are you giving out any vouches? Not trying to leach and happy to pay if it does what you say..  
I'm an avid email marketer and this sounds like the Golden goose.

Sorry no vouch copies, we can use contracts and trusted mm if necessary.

Understand you don't want to give a vouch.. But super high price. Worth it if it works. What about sending out an email blast for someone using this site? Would be a vouch without giving anything away

You are a new member, nobody is going to give you \$250, even with a contract.

If you want to give me a vouch copy, let me know and i will write a detailed vouch for you.

Without vouch copy you won't sell a single copy, i can guarantee you that.

OK I might give a vouch copy to white. However I also accept middleman.

Even cold emails? Account creation how long will it take?

Investment needed to create accounts?

Hit me up with a PM. I have MM waiting and contract plus funds ready as soon as you can answer my questions

Account creation is like 5-10 mins max.

No investment needed only a PayPal account.

I sent a vouch copy to wh1t3 he should leave a review by tomorrow because he's going to bed now.

You are going to need some sort of vouch at that price. Either from a vouch copy or high ranking member.

I have 1 copy sold just a bit earlier.  
inviZ is on it right now, sent him a vouch copy.

Whit3 for some reason cannot configure it I offered to help him setup but he's busy or something.
