Thread: [Unlimited FREE Premium Fonts!](#)

Herbert - March 30, 2019, 1:11 pm

I found a source dedicated to scavenging premium fonts, hundreds of pages with around 4-5 people who constantly share them.

all you have to do is post below and I'll get back to you!

popularity is appreciated but not required!

I know couple years ago I found this thread here on HF and it showed how to get premium fonts yourself. I don't know if it still works, you can try it.

yeah it was, although I still think this one is way quicker, plus you can get all the files styles with a single click.

it probably only has 90% of the fonts, but still impressive.

I'll double check some possibilities You can still download the font files from any Site that doesnt use images as a preview.

Here is how: <https://streamable.com/s/0yse5/wsonto>

I dont think you get the full featured Font but in many cases just the glyphs are enough.

Anyways, please send me a dm with the site.
