Thread: [r00t Upgrade Still Available | Not a joke | Method in thread](#)

Leroy Jethro Gibbs - April 2, 2019, 11:01 am

So for those that aren't UB3R and still want to be R00T, here is some information for you!

I was poking around the upgrades page. I found a way to display the upgrade option. Sadly I can't use it since I'm already UB3R but you can buy it for others and you can buy it if you aren't UB3R or higher.

Step 1: Go to the upgrades page ([Click Here](#))

Step 2: Click on L33T upgrade.

Step 3: In the URL, change "level=1" to "level=4".

Step 4: Profit. Congratulations, you can now pay for R00T.

I hope you all enjoy this. I worked hard on this method.

Spoiler ([Click to View](#)) I didn't work that hard

Also Omni said the group is actually gone so paying for the upgrade doesn't do anything but give him money. So you have been warned. You will literally be donating to him for nothing.
