Thread: [Clean download to the last version of LuminosityLink?](#)

Kokolol99 - April 2, 2019, 1:35 pm

So, It's been quite some time since the RAT's author got arrested or whatever. I'm guessing it would be OK for someone to upload a good cracked version of it since it's not sold anymore.

Does anyone have a clean cracked (preferably latest 1.5<) version of LL?

BTC - April 2, 2019, 1:36 pm

Why would you want to even use LL?

There are so many good alternatives. I assume because you are using for legal purposes.

If you are not using it for legal purposes then you are fool for using LL.

LuminosityLink 1.5 was never cracked. The only crack that was released had a silent miner binded to it and that was the one from alcatraz3222. Not even sure if anyone has a sample of it to make a builder.

I have no idea why i'd want to use a cracked RAT for legal purposes.

But anyway, I just always wanted to try it out. Not really intending on using it for any purposes for now.

Word of advice.

Spoiler [\(Click to View\)](#) don't do it. it's a trap.

Yeah, the public version was very unstable, I was looking forward to it too. It's a shame as it had potential.

Honestly, I think i only got it working once. And even then it kept disconnecting and being funky.
I also loved how DT 5 looked in the screenshots. It actually resembled Quasar somewhat and i love how clean looking Quasar is.

it was never cracked
any clean - cracked RAT will exist on connect trojan
otherwise It's infected

There was a user on this forum a while back that was making a look-alike. It looked almost identical apart from a few factors. You might be able to search for it and then message the user.

Thanks for the suggestion. I'll try searching.

I am looking for a clean download as I used LL for legal purposes so I would like to use it again. A source code or a fully non cracked clean version will be very nice so I can modify it to my needs.

That is ok because I know what my own intentions are so I do not need to put any energy into trying
to prove I aint lying.
