Thread: [Selling my Spotify/Hulu/Netflix Account Ebook](#)

CowboyDrogo - April 2, 2019, 4:10 pm

Hey guys, I have an old ebook that allows you to create premium accounts of popular streaming, and music streaming websites.

This works for:

Netflix
Hulu
Spotify
AdmitMe

I have been using this to make me enough money to get what I need as a normal human, this pays for my groceries, my monthly internet bill, and my phone bill usually. It is a good way to make profit for the time being. I opened a shop on ebay, and that is usually how I sell it. I have moved on to coding, and making websites for customers, so I never have time run my business on ebay.

I obviously will be giving out voucher copies considering I have no reputation on this website. Looking for reputable users to write a detailed review.

I am only selling around 15, to keep it fair to the sellers.

Thanks guys :) ?
