Thread: [Need Reviews for My Upwork Account \(20% fee\)](#)

megadiaperbaby - April 3, 2019, 11:20 am

Hey everyone,

I recently started freelancing and I need some help building up my reputation on UpWork. Here's the basic idea behind it and what you need to do:

Go to Upwork.com and register your account

Post a job where you need a WordPress or Ecommerce Website built (budget should be \$100)

Keep the job open and I will apply for the job

Hire me on Upwork

Make Payment of \$100 and leave a review of my service

Upon completing these steps, I can send you \$120 for your time. If anyone is interested, PM me, reply to the thread and I can start creating a contract here to make safe.

Thank you!

Hi buddy, I'd love to help, won't go first though.

Let me know

If you are willing to send me the funds first, I can do this.

Let me know.

I can do half as a down payment and provide the rest after the completion of the job. Will that work?

How about 50% down payment first and the rest upon completion?

Thank you!

I currently don't have PayPal funds in hand, that's why I would need at least the \$100 first.

I'm willing to do this, hit me up if you're still interested.

Yeah I'm willing to do this but how do I know I won't lose \$100?

Do let me know if you need reviews.

I can manage them :-)
