Hey, some questions

1) Is your business really located in San Fransisco, CA cuz thats not possible if ur doing business in Iran

2) Do you own the ASN?

pr0finj3ct0r - April 6, 2019, 8:02 pm

Good person and helped me and server very fast and white list ..

Damn, this looks very nice.

Any limitation for malware?

Any limitation for malware?Spoofing servers are coming soon in 24-48 hours. To answer your question, I stated the limitations in the thread. Thanks! No malware limitations.

DataTron.Network - April 7, 2019, 11:57 am

The more requests I get, the more I can adjust packages to fit client needs to meet the perfect prices.

Red Sox x - April 7, 2019, 12:58 pm

hey bro your site not work
im want to buy something bulletproof
why your site is down?????? product not longer?

owwww bro.... lets get that fixed... that s life

DataTron.Network - April 7, 2019, 8:41 pm

Working on getting certificate validated on my website. Right now it's self signed that's why it's giving certificate errors when accessing page. This will be fixed soon. I'm only accepting crypto.

DAVINCI - April 8, 2019, 3:09 pm

Hello! Soon we will also offer spoofing dedicated servers for sale. Starting at very good prices! -

<http://datatron.network>

DataTron.Network - April 9, 2019, 9:08 am

Lowest hosting plans now starting at \$1.50.

BTC - April 9, 2019, 9:11 am

\$1.50 per month for web hosting. You really can not argue with that price ? Jesus.

Going to shoot you a PM to further discuss.

DataTron.Network - April 9, 2019, 7:56 pm

We now went unlimited for only \$10/month!

cla4cky - April 10, 2019, 5:30 am

the speed is little be slow :)

You get what you pay for... \$8/month for 5MB-10MB is a steal. What do you mean? It is bulletproof servers, so this price is perfect.

DAVINCI - April 10, 2019, 1:57 pm

We offer the best hosting solutions. Accept anything on the servers. Prices start at \$ 1.50. Yes, anything is acceptable. Warez, Botnet. :) The cheapest bulletproof hosting on the market!

Havockas - April 11, 2019, 3:42 pm

Havockas - April 11, 2019, 4:20 pm

How is fast shared hostings?

DataTron.Network - April 12, 2019, 9:43 pm

Average around 8MB/sec to 10MB/sec for the hosting.

DAVINCI - April 15, 2019, 1:34 pm

Datatron, returned with a small update. Please note that all VPS servers will be done automatically. We added a VPS management that will help you reinstall, stop, start at that server, logs, etc., using AutoVM.

Thank you very much for those who support us and promise that the service works well

What u want? Is bulletproof u no?

They are selling "Spoofed VPS".... They may not know that if a user on the Node sending ddos, it will slow down the Node for others on the Node till its unaccessible.

Neither do the customers know. Probably. Anyone who purchases or sells VPS for ddosing is.... not very knowledable.

So very good idea.

Would be funny if those Spoofed VPS are OpenVZ machines. But who knows.

Its not my business.
