Slow Motion - April 4, 2019, 11:45 am

I am looking to exchange my AGC.com for your BTC @ 72 -75% rate.

All sales are final.

I will go first if you have much better and higher B-rating than I do, if you are extremely trusted, and ofcourse no scam reports/DD open. In any other case you will be going first

PM before you start contract ?
