Thread: [I'll try make a console application for you](#)

VIXV - April 5, 2019, 8:57 am

Using/learning python and if anyone needs or wants or even has any ideas of a console application that I could actually make, drop them below and I'll get back to you. Thanks :)

<https://docs.python.org/3.6/library/timeit.html>

This would be a good starting spot.

damn bros. y'all really don't understand what a troll is.

this man asked for a simple beginner python console app, and I gave him one. I don't need this. notice how I gave him a library to dive into as well?

pls read.

I need a program that simulates at least 30 viewers on Twitch using selenium, requests, and maybe beautifulsoup. Thanks in advance if you can do it.
